

## Peak-Ryzex partners with Loqus to provide Managed Mobile Services

Chippenham, XX Month 2014 – Peak-Ryzex has formed a strategic technology partnership with business intelligence company Loqus. Loqus provides solutions primarily for fleet resource management, including dedicated tracking, despatching and Route Optimisation products. Its Routing & Scheduling solution is regarded as the most advanced on the market and is used by a number of the UK's premier courier and parcel delivery companies. Loqus also provides law enforcement solutions. The arrangement with Peak-Ryzex will provide Loqus customers with a first point of contact for the ongoing management of their mobile solution through its managed mobility services (MMS).

Damian Penney, Managing Director, Peak-Ryzex Europe said, "Partnering with Loqus is a positive step for Peak-Ryzex. We complement the products and services that Loqus provides, therefore the company's customers will benefit from our wide range of MMS solutions that will ensure smooth running of their particular Loqus software. Regardless of the application, Loqus customers can be confident that their mobile equipment will receive the first class treatment our managed mobility services are renowned for. Likewise, Peak-Ryzex will have access to Loqus' skills and expertise so that our own customers can gain the benefit of cutting edge tracking, despatching and optimisation products."

Roland Scerri, Deputy CEO, Loqus added, "Peak-Ryzex is a great match for us. We work in very similar areas so it makes perfect sense to partner with a company that has strong, proven credentials in the MMS space. We design our solutions so that our customers can focus on their core businesses, we don't expect them to worry about the IT. With Peak-Ryzex, we are able to further enhance this service excellence by delivering a true one-stop-solution for their mobility needs. No business wants to put anything on hold because of a hardware issue, with Peak-Ryzex we can offer our customers the reassurance that it will be business as usual for them."

### About Peak-Ryzex

Peak-Ryzex provides end-to-end enterprise mobility, managed services, printing and mobile data capture solutions for performance-driven organisations focused on the optimisation of supply chain and field-based business processes. Peak-Ryzex's in-depth industry-specific experience, state-of-the-art solutions and managed services, and exemplary customer support provide transformational business solutions that deliver greater ROI and outstanding value. Peak-Ryzex serves as a trusted business partner for some of the world's largest companies, while also supporting local and regional customers with an extensive coverage footprint throughout North America and Europe.
