Review of group operations

Introduction

This Statement is published pursuant to The Malta Financial Service Authority Listing Rule 9.35 and Article 4(2)(b) of the Prevention of Financial Markets Abuse (Disclosure and Notification) Regulations, 2005.

The financial information has been extracted from Datatrak Holdings p.l.c.'s audited consolidated financial statements, which have been audited by KPMG, for the year ended 31 December 2007 as approved by the Board of Directors on 14 May 2008. These financial statements will be laid before the members at the general meeting to be announced at a later date.

The Group's financial statements have been prepared in accordance with the Companies Act, 1995 enacted in Malta (the "Act") which requires adherence to International Financial Reporting Standards (IFRSs). Article 4 of Regulation 1606/2002/EC ("the Regulation") requires that, for each financial year, companies that have their securities trading on a regulated market of an EU Member State shall prepare their consolidated financial statements in accordance with International Financial Reporting Standards (IFRSs) as adopted by the EU. The Regulation prevails over the relevant provisions of the Act, to the extent that the said provisions are incompatible with the requirements of the Regulation.

EU-endorsed IFRSs may differ from IFRSs as published by the International Accounting Standards Board ('IASB') if, at any point in time, new or amended IFRSs have not been endorsed by the EU. At 31 December 2007, there were no unendorsed standards effective for the year ended 31 December 2007 affecting these consolidated financial statements, and there is no difference between IFRSs as endorsed by the EU and IFRSs as issued by the IASB in terms of their application to the Group.

At 31 December 2007, shareholders holding 55.29% of the issued share capital agreed and confirmed as at that date, that they were in favour of the restructuring of the group as approved by the respective Board of Directors, and confirmed that they were to vote in favour of the resolutions of the Extraordinary General Meeting (EGM) called for this purpose on 4 April 2008. All the proposed resolutions for the restructuring of the Group were approved by the shareholders during the mentioned EGM. As a result of the confirmations referred to above, the sale of the operations, together with the assets and liabilities, of Datatrak Solutions Limited (Vendor) to Datatrak MENA Ltd and of Datatrak I.T. Services Limited (Vendor) to Datatrak Systems Limited was recognised as at 31 December 2007.

As the restructuring was duly approved by the shareholders at the mentioned EGM, and is being implemented, the directors are of the opinion that the going concern basis in the preparation of these financial statements is deemed appropriate.

Other explanatory notes

Use of estimates

The preparation of financial statements requires management to make judgements, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, income and expenses. Actual results may differ from these estimates.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised and in any future periods affected.

In particular, information about significant areas of estimation uncertainty and critical judgement in applying accounting policies that have the most significant effect on the amounts recognised in the financial statements is included in Note 14 to the financial statements – measurement of the recoverable amounts of cash-generating units containing goodwill. Apart from this disclosure, there are no other critical accounting policies and estimates which require additional information to be disclosed.

Gain on sale of business, asset and liabilities

This represents the minority's share of gain on sale of business, asset and liabilities resulting from the Group's restructuring which was approved by the shareholders at the Extraordinary General Meeting held for this purpose on 4 April 2008, effective as at 31 December 2007.

Review of group performance

Results of the Group were significantly affected by the impairment recognised in respect of the system infrastructure and goodwill and the reversal of deferred tax asset as proposed at the Extraordinary General Meeting.

Apart from the above, the overall performance of the Group for 2007 was positive notwithstanding that turnover fell slightly primarily because of the decrease in revenue generated by Datatrak Systems Ltd as a result of a revision of fees being charged, and partly from a decrease in realised sales by Datatrak IT Services Ltd. R&D continued to be a major part of our investment with over €750k (Lm322k) being spent in 2007. Higher marketing costs were also incurred in 2007; this was predominantly focused on establishing a presence in Italy.
